

# Layers of the Earth

- The \_\_\_\_\_ is made of hot lava.
- The \_\_\_\_\_ is where we live, and where the continents and oceans are.
- The \_\_\_\_\_ is where most of the earth's heat is stored.

Can you guess the name of each of earth's layers?

Fill in the name of each layer of the earth, then number each description.

Answers: 3. Core 1. Crust 2. Mantle
